2. Water Forum Public Outreach Meeting 1
3. Water Forum Public Outreach Meeting 2

The image shows a screenshot of a calendar application for December 2016. The calendar is displayed in a grid format with days of the week as columns and dates as rows. The date December 14th is highlighted in blue, and a blue box with the word "Board" is overlaid on this date. The calendar interface includes a header with the month and year, the location "Sacramento, California", and weather forecasts for "Today" (75°F/52°F), "Tomorrow" (80°F/51°F), and "Friday" (84°F/52°F). There is also a search bar for the original calendar. The calendar is framed by a light green border with "Previous Appointment" and "Next Appointment" buttons on the left and right sides respectively. At the bottom, there are labels for "ople" and "Tasks" with a menu icon.

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
Nov 27	28	29	30	Dec 1	2	3
4	5	6	7	8	1	10
	12	13	14 Board	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

Guidelines

- SGMA

- Scientific evidence of 10 years of Operation within Sustainable Yield of the subbasin
 - Entire subbasin
 - Locally defined Sustainable Yield
- No updates to local GMP allowed after January 1, 2015
- Silent on CEQA exemption for Alternative

- GSP Regulations

- Functional Equivalence to Art 5 and 7 of GSP Regulations

Guidelines, Continued

- Multiple meetings with DWR
 - Preparation and reporting of “All” data by a licensed (hydro) geologist or PE
 - 10+ years of substantiated evidence of basin operations within a Sustainable Yield
 - No undesirable results (URs) have occurred as a result of GMP implementation or basin pumping activities subject to SGMA
 - Showing planned projects/programs in the context of Alternative sends mixed message (i.e., if no URs occurring, why projects?)
 - Functional Equivalency is likely going to be a “check-the-box” exercise
 - Substantially complete Alternative may be returned with recommended corrective actions based on DWR considerations
 - DWR/SCGA counsel recommendation for CEQA compliance creating critical path

Guidelines, Continued

- Existing 2006 Groundwater Management Plan (GMP)
 - Existing GMP and published materials are primary resource documents for show of functional equivalency
 - All projects and programs used for purposes of 10 year report need to be tied back to the 2006 GMP
 - GMP CEQA compliance
 - Alternative to CEQA

Agenda for Outreach

Other Opportunities in Future
