Subject: Adoption Of The Fiscal Year 2015/2016 Sacramento Central Groundwater Authority Budget And Authorization To Collect Annual Contributions

Contact: Darrell K. Eck, Executive Director, 874-5039

Overview

The Sacramento Central Groundwater Authority (Authority) was established to maintain the long-term sustainable yield of the Central Sacramento County Groundwater Basin (Central Basin). The Joint Powers Agreement (JPA) between the City of Elk Grove, the City of Folsom, the City of Rancho Cordova, the City of Sacramento and the County of Sacramento creating the Authority provides the funding mechanism necessary to implement the Central Sacramento County Groundwater Management Plan (Central Basin GMP). Collection of the contributions described in the JPA and adoption of the Authority's 2015/2016 fiscal year budget provide the means for the Authority to implement the Central Basin GMPs administrative programs.

Recommendations

Adopt Resolution No. 2015-01 to fund the Authority's administrative budget for fiscal year 2015/2016 and provide for the collection of the annual contributions as described in the JPA.

Adoption Of The Fiscal Year 2015/2016 Sacramento Central Groundwater Authority Budget
And Authorization To Collect Annual Contributions

BACKGROUND:

On August 29, 2006 the Cities of Folsom, Elk Grove, Rancho Cordova and Sacramento and the County of Sacramento executed a joint powers agreement creating the Sacramento Central Groundwater Authority (Authority). The purpose of the Authority is to maintain the long-term sustainable yield of the Central Basin; ensure implementation of the Basin Management Objectives (BMOs) that are prescribed by the Central Basin GMP; oversee the operation of any Well Protection Program that may be prescribed by the Central Basin GMP; manage the use of groundwater in the Central Basin and facilitate implementation of an appropriate conjunctive use program by water purveyors; coordinate efforts among those entities represented on the governing body of the joint powers authority to devise and implement strategies to safeguard groundwater quality; and work collaboratively with other entities, including other groundwater management authorities that may be formed in the County of Sacramento and adjacent political jurisdictions, in order to promote coordination of policies and activities throughout the region.

On November 8, 2006 the Board adopted the Central Basin GMP. The Central Basin GMP reviews current and future water supply and demands and contains BMOs that address the rate of groundwater extraction, groundwater elevation, land surface subsidence, surface water flows and groundwater contamination. The Central Basin GMP also contains “trigger points” and remedies to ensure full implementation of the BMOs. It also provides for the protection of private groundwater wells and establishes cooperative relationships with Sacramento County’s Environmental Management Department and other regulatory agencies to address groundwater contamination.

The proposed 2015/2016 fiscal year budget was developed based on the following program objectives and is shown in Attachments A, B, C, and D.
